

MUSLIM WOMEN PROFESSIONALS PRESENTS

AMCF Women's Giving Circle Nominee Application Deck

Testimonials

The following testimonials are from respondents who filled out our End of Year Surveys.

“MWP has addressed a long overdue community need for female Muslim professionals. MashaAllah our community is INCREDIBLY diverse with skilled women in almost every industry. Not only has MWP allowed a safe space for discussion of workplace struggles, but we can now all network for assistance and future opportunities. Together we can ALL win.”

“I’ve loved being a part of the beginning when MWP was small and intimate and then seeing it expand into the great resource it is!”

“Meeting the women of MWP, from different backgrounds and generations, has been a blessing... what I’ve gained most in the last year is validation. That realization that ‘oh, I’m not the only one who feels that way’ and then the steps to move forward have been comforting.”

Testimonials

The following testimonials are from respondents who filled out our event feedback forms.

“Thank you SO much for organizing such an empowering conference. I feel so much stronger in showing up confidently in my Muslim identity in my career, and it was so heartwarming getting to meet sisters from a range of industries. May Allah SWT bless all of your efforts in making this space possible for all of us!”

“This was a ground breaking conference that was only the START of much needed conversations. I’m so thankful MWP has provided the platform for safe and relatable conversations for all Muslim women!”

“Thank you for making this experience so great! I loved everything!”
